PROFESSIONAL SUMMARY

I am an Informatics Engineering student with a strong interest in web development, especially using PHP with the Laravel framework. I also have a good understanding of JavaScript, HTML, and CSS. I enjoy solving problems, building functional web applications, and continuously learning new technologies. Currently seeking opportunities to apply and grow my skills in a professional environment.

Technical Skills

Back-End: PHP (Laravel)  
Front-End: JavaScript, HTML, CSS  
Database: MySQL  
Tools: Git, GitHub, VSCode  
Other: REST API, MVC Architecture, Blade Templating

Selected Projects

- 1. Employee & Archive Management Web Application  
Developed for the Public Welfare Bureau, Regional Secretariat of West Java
- 2. Race Identification System Using Computer Vision  
Implemented a machine learning model to classify racial features from images.

EDUCATION

**Ars University, 2022 – Present**  
Bachelor of Informatics Engineering  
Current GPA: 3.62  
Relevant Courses: Web Development, Database Systems, Computer Vision, Software Engineering  
Final Year Project: Employee and Archive Management System for the Public Welfare Bureau, Regional Secretariat of West Java Province  
Additional Project: Human Race Identification using Computer Vision

WORK EXPERIENCE

Intern Web Developer

- Public Welfare Bureau, Regional Secretariat of West Java March 2025 – June 2025
- Developed and maintained a web-based Archive and Employee Management System using Laravel and MySQL.
- Collaborated with government staff to understand user requirements and translate them into functional web features.
- Implemented role-based access, document upload modules, and data reporting functions.
- Contributed to improving digital efficiency in document handling and employee data processes.
